

GARD-DRAIN® 700

PRODUCT DESCRIPTION

Gard-Drain® 700 is a prefabricated drainage medium designed to manage water in landscape zones, roof gardens, plaza decks and beneath concrete toppings by collecting water and discharging it into the plumbing system. **Gard-Drain® 700** is a high flow rate drainage medium utilizing a dimple core design with a high strength woven monofilament filter fabric adhered to the core on one side. The filter fabric prevents soil, concrete and other particles from entering the drainage core. **Gard-Drain® 700** is designed for horizontal applications
