

# GARD-STOP SK TAPE

## PRODUCT DESCRIPTION

**Gard-Stop SK Tape** is a self adhesive bentonite swelling sealant tape. It has a release liner on one side. It is designed to adhere to almost all surfaces. When the **Gard-Stop SK Tape** comes in contact with water it expands and creates a gasket type of seal. It is used as an accessory product in conjunction with the **HYDRO-PRUFE® PVC** Thermoplastic waterproofing systems. It can be used to wrap pipe penetrations and is installed over the PVC waterstops when compartmental segments are used in the **HYDRO-PRUFE® LDS** system. It can also be used in applications where a waterstop is required.

## PRODUCT NUMBERS AND COLORS

Standard Color is:       Black

## PHYSICAL PROPERTIES

<u>Description</u>	<u>Results</u>
Shape	rectangle
Swelling property	320%
Working Temperature	14F - 149F
Weight per LF	3.35/oz
Shelf life	Up to 5 years

## PRODUCT DATA

Size:	Roll Thickness	8 mm
	Roll Width	18 mm
	Tapes per Roll	2
	Roll Length	33'
	Tape Length	16' 5"
	Roll per Box	8 ea
	Tapes per Box	16
	Boxes per Pallet	24
	lf per Box	262'
