RE: Safety Data Sheets - OSHA 1910.1200

To Whom It May Concern:

Please be advised that the products and systems manufactured by Hydro-Gard, LLC, listed in attached "Exhibit A - Articles" of this notice are considered "articles" as defined by the Department of Labor.

OSHA 190.120 (c) Definitions:

"Article" means a manufactured item other than a fluid or a particle: (i) which is formed to a specific shape or design during manufacture; (ii) which has end use function (s) dependent in whole or in part upon its shape or design during end use; and (iii) which under normal conditions of use does not release more than very small quantities, e.g., minute or trace amounts of a hazardous chemical (as determined under paragraph (d) of this section), and does not pose a physical hazard or health risk to employees.

"Articles" are exempt from OSHA's Hazard Communication Standard and the Globally Harmonized System and therefore Hydro-Gard, LLC is not required to generate "Safety Data Sheets" for the products manufactured nor comply with the new labeling requirements.

If you have questions concerning this information please contact Hydro-Gard, LLC, Technical Services at (562) 944-7030

Respectfully,
