

GARD-DRAIN® 200

PRODUCT DESCRIPTION

Gard-Drain® 200 is a prefabricated drainage medium designed to manage water around foundations by collecting surface and ground water and discharging it into the designed collection systems. Gard-Drain® 200 is a Moderate duty drainage medium utilizing a dimple core design with a non-woven filter fabric adhered to the core on one side. The filter fabric prevents soil and other particles from entering the drainage core. Gard-Drain® 200 can be used either vertically or horizontally.

PRODUCT NUMBERS AND COLORS

Standard Color is: Black

PHYSICAL PROPERTIES

Description	Test Method	Results
Compressive Strength	ASTM D1621	11,000 psf
Thickness	ASTM D5199	.25 in
Core Flow Rate	ASTM D4716	12.5gpm/ft width
Fabric Flow Rate	ASTM D4491	165 gpm/ft ²
Fabric Puncture	ASTM D6241	275 lbs
AOS	ASTM D4751	70 US Sieve
Grab Tensile	ASTM D4632	100 lbs
Grad Elongation	ASTM D4632	65%
Recycled content		74%

PRODUCT DATA

Roll Weight	Roll/Width	Roll/Length
28 lbs	48"	50'

PACKAGING

6 Rolls per pallet

INSTALLATION

Gard-Drain® 200 can be installed either horizontally or vertically. Gard-Drain® 200 can be installed utilizing approved adhesives or mechanical fasteners. If installed over waterproofing membranes contact membrane manufacturer for preferred method. Seams shall be overlap and secured per manufacturers details.
