

# GARD-DRAIN® 400

## PRODUCT DESCRIPTION

**Gard-Drain® 400** is a prefabricated drainage medium designed to manage water around foundations by collecting surface and ground water and discharging it into the designed collection systems. **Gard-Drain® 400** is a high flow rate drainage medium utilizing a dimple core design with a non-woven filter fabric adhered to the core on one side. The filter fabric prevents soil and other particles from entering the drainage core. **Gard-Drain® 400** can be used in vertical and horizontal applications.
